SCHOOL COMMITTEE OPERATIONAL GOALS

The School Committee is responsible to the people for whose benefit the school system has been established. The Committee's current decisions will influence the course of education in our schools for years to come. The Committee and each of its members must look to the future and to the needs of all people more than the average citizen finds necessary. This requires a comprehensive perspective and long-range planning in addition to attention to immediate problems.

The School Committee's primary responsibility is to establish those purposes, programs, and procedures that will best produce the educational achievement needed by our students. The Committee is charged with accomplishing this while also being responsible for wise management of resources available to the school system. The Committee must fulfill these responsibilities by functioning primarily as a legislative body to formulate and adopt policy, by selecting an executive officer to implement policy, and by evaluating the results. It must carry out its functions openly, while seeking the comments of public, students, and staff in its decision-making processes.

The School Committee will annually (prior to the start of the school year) establish realistic objectives related to Committee procedures and relationships. The Committee will measure its performance against the stated objectives annually during the final meeting in April of each year.

Objectives for the following areas of School Committee operations and relationships will be established and assessed:

1. Communication with the public
2. School Committee - Superintendent relationships
3. School Committee member development and performance
4. Policy development
5. Educational leadership
6. Fiscal management
7. School Committee meetings
8. Performance of subcommittees of the School Committee
9. Interagency and governmental relationships

When the Committee has completed its self-evaluation, the members will discuss the results in detail and formulate a new series of objectives.

Implied in the concept of evaluation is an assumption that individuals and Committees are capable of improvement. The School Committee believes that its performance will be improved if evaluation is carried out systematically in accordance with good planning, conscientious follow-through, and careful assessment of results.
